during my residency at a bay area hospital, we caught far more renal dosing, wrong patient, not on formulary errors made by mddos than the pharmacists themselves made,

in group(to the individual and to the group) that means if i am at let's say a nightclub, ask for

eyou can lose yourself by destroying your health, by trashing your integrity, by abandoning your personal relationships and by giving up your dreams for the sake of drugs

but as important as this revival has been for the red hookgowanus neighborhood, businesses in the area are now facing a tremendous threat to their future growth and, possibly, their very survival

there can be scar tissue where inflammation was, leading to some shrinking of bladder causing increasing
